Hi Mike

Thank you for the opportunity to quote for the grass cutting in Aldbrough St. John. We currently have contracts with 9 other Parrish councils in the area so this is the work we are set up for.

14 cut per season (March-October) with obstacles and kerb edges strimed, and any arisings blow off walk ways.
Cost per cut £295.00 plus vat
Total cost for 14 visits £4130.00 plus Vat

Copies of H&S, insurance and training certificates can be produced upon a successful tender.

Please do not hesitate to contact me if you require any additional information

Kind regards

GCH Garden Maintenance

6th February 2024

Dear Stephen,

Thank you for the opportunity to tender for the grass cutting contract with Aldbrough Saint John Parish Council.

We are providing a quote for the 2024 cutting season. Thank you for the review, our aim is to provide a reliable and consistence service to the Council at a competitive rate, we employ local people who manage cutting operations through the growing season and also maintain and repair our machinery through the winter months.

Quotation & Cutting Areas

Following our visit we have reviewed the cutting areas, if successful we will update these into an electronic map for confirmation.

Employee Training and HSE

Our company recognises the importance of health and safety for our employees and the public whilst we manage all of the travel and tasks involved in managing grass cutting operations. Today we work closely with an experienced HSE professional who provides us with frequent training and updates for our operatives. For confirmation, our PPE is certified by the manufacturer and our HSE consultant ensures the team is using this as required and as outlined within our relevant policies.

Company Environmental Improvements

For many years we have operated using paper invoices and payment by cheque. Today our company provides electronic invoicing and prefers online payments to help us all head toward Net Zero. We aim to provide effective written communications and support through email as well as phone. Additionally, we are investing in our mower equipment to reduce our overall carbon footprint.

Yours sincerely,

c walker

Quotation

Our quotation has been prepared following our visit, costs are calculated based on labour hours plus overhead.

The grass would be cut and drop, as this remains the most economical method of managing the service. Cutting every two weeks ensures that the cut grass is not unsightly. Strimming is included with each cut.

Approx. 14 -15 cuts are managed for the other areas, dependent on the growth and weather conditions during the season.

2024 Season	Cuts	Area	Per Cut	Cuts	Per Season	
	14-15	Parish Council	£480.00	14	£6,720.00	+VAT

The quotation is valid for the 2024 cutting season.

Dropped to £320

4,480

Confirmed still to much
